

KPM862

KPM862 is the only compact airport printer able to combine **metallic structure, high speed and refined design together with a lower TCO** (Total Cost of Ownership). KPM862 offers efficient and innovative functionalities like the **auto-calibration**, that avoid the waste of paper through auto-calibrating sensors that can adapt to an infinite number of media types. The **multi feeder** version is useful for reducing waiting times by increasing printing volumes, the **RFID** configuration allows you to have a product already prepared for future needs. **Veriprint®** technology allows to instantly validate the barcode of a bag tag or boarding pass preventing a baggage or a passenger are checked-in but carrying an unreadable luggage tag / barcoded boarding pass. TK862 is compatible with **AERO VCOM SERVICE** which supports the most sophisticated AEA communication standards and allows per-airline **dedicated configurations** within standard AEA parameters.

CARATTERISTICHE PRINCIPALI

Tra le caratteristiche indicate figurano **Ultra resistente, Altamente affidabile e robusta, Molto veloce e potente**, Stesso modello per ATB e BTP e Sensori Contact Imager (CIS) per il rilevamento di spazi vuoti al posto dei tradizionali sensori di tacca nera, per migliorare l'affidabilità e ridurre le operazioni di pulizia e allinearsi virtualmente a qualsiasi marca/foro/logo.

Tra gli altri elementi riportati figurano **Veriprint Barcode Validation (optional), Taglierina extra resistente**, RFID (opzionale), Prevenzione Dot Danneggiati, Rilevamento automatico della lunghezza del biglietto e Completo auto-caricamento carta senza sprechi.

SPECIFICHE TECNICHE

Options	RFID
Strenght	Ultra Heavy Duty
Usage	ATB;BTP;GPP
