

QD CUSTOMER DISPLAY

Newly designed CUSTOM QD graphic display with updated features. It features an innovative design and new construction materials, and has been specially conceived to be used in combination with the all Custom family printers. The graphic LCD technology allows you to create phrases, messages and drawings on the display. The tower case can be telescopically adjusted and allows it to be positioned at the best height for operator and customer reading. Backlit graphic LCD display specially designed for ECR and POS systems. It is equipped with serial RS232 interface. The display is powered directly by the CUSTOM printer (as optional, it may be equipped with serial cable and power adapter for direct connection to the PC).

CARATTERISTICHE PRINCIPALI

The new graphic Customer display CUSTOM QD in design and features. Innovative in design and construction material, specifically designed and manufactured to match all printers in the Custom family. The graphic LCD technology allows you to create phrases, messages, and drawings on the display at will. The telescopically adjustable tower allows positioning at the correct height for proper reading by the operator and the customer. Blue backlit graphic LCD display designed specifically for ECR and POS systems. It features a serial interface RS232, and the display is powered directly from the CUSTOM printer (optionally, it can be equipped with a serial cable and power supply for direct connection to a PC).
