

SM100-200

With their state-of-the-art technology, SM100 and SM200 barcode scanners provide excellent performance in checkout operations. They are reliable scanners, suitable for a variety of work environments: their features and exceptional price-performance ratio make them the best solution for retail and warehouse applications. SM100 and SM200 have an ergonomic design and are equipped with USB interface. The powerful integrated scanner detects all major 1D/2D barcodes and GS1 DataBar™ symbols, there including damaged or misprinted codes. The devices also reads on display, reducing processing time and labor costs, increasing accuracy as well. Finally, the ScannerSet programming software provides extensive configuration options. SM100 and SM200 are one of the most versatile solutions on the market, the best choice for any retail environment.

CARATTERISTICHE PRINCIPALI

Among the indicated features are **Excellent reading performance in low-light environments and on labels and smartphones, Drop-resistant from 180 cm, Fully configurable with the ScannerSet software**, IP41 protection against water and dust, and ergonomic and lightweight design.

The datasheet also indicates markets and operational details such as **The best value-for-money solution on the market, suitable for Retail, POS, and warehouse applications, Reading depth up to 200 mm**, Supports a minimum resolution of 4 mil/0.1 mm, and reads most 1D barcodes, including GS1 Databar codes.
